BUNKER SORATTE

REGULATIONS FOR GUIDED TOURS OF THE UNDERGROUND TUNNELS OF MOUNT SORATTE

These regulations have been adopted to make your visit to the underground tunnels of Mount Soratte safer and more enjoyable.

ROUTE SAFETY

The tour route poses no hazards to visitors and is thoroughly inspected before each opening to check the integrity of all safety barriers, displays, and general signage; however, it is **mandatory** to strictly follow the instructions of the Tour Guide and the Rear Guide, without ever straying from the path.

ACCESSIBILITY AND LIMITATIONS

Although the route is mostly flat and passes through very spacious areas, it is **not recommended** for people with mobility difficulties, those who suffer from claustrophobia, panic attacks, dust allergies, or discomfort in the dark or in crowds, and children under 5 years of age. Inside the bunker, there are also several flights of stairs that make the upper floor of the fallout shelter **inaccessible** to wheelchair users and strollers.
The tour route is atmospherically lit, though bringing a flashlight (torch) can still be useful to improve visibility in certain areas.

GUIDE ASSISTANCE

Our Guides are trained to explain every area in detail and to organize a swift and effective evacuation in case of an emergency.

PROHIBITED BEHAVIOR

Throughout the entire duration of the tour, **it is forbidden to**:

- Light fires or smoke;
- Shout, speak loudly, or make any kind of noise;
- Endanger your own or others' safety through inappropriate behavior or by disobeying the instructions of the Tour Guide or Rear Guide;
- Take photos, record audio, or film during guided tours: p**hotography is only permitted** during dedicated themed tours, where you must still follow the guidelines provided by the Association;
- Litter;
- Eat or drink alcohol;
- Touch vehicles and displays;
- Remove any objects found inside the underground tunnels;
- Cross safety barriers;
- Remain inside the bunkers outside of your scheduled tour hours;
- Display political or ideological symbols, unless authorized by the Association purely for historical reenactment purposes;
- Bring in animals.

VISITOR TIPS

For a comfortable visit, we advise bringing **warm clothing** (a sweatshirt, a windbreaker, etc.), even in summer, and wearing **comfortable shoes** with very sturdy soles (strictly avoid stiletto heels, flip-flops, etc.): the internal temperature is **constantly 10° - 14°C** (50° - 57°F) and **humidity levels are often high**.

PARKING AND ACCESS

Parking and driving any motorized vehicle are **not permitted** inside the former military zone; vehicle access is granted only to "Bunker Soratte" staff, permit holders authorized by the relevant authorities, historical reenactors, and visitors with disabilities accompanied by a companion

RESTROOMS

The area is equipped with restrooms, guaranteed to **remain open during events**, near the building known as "Casa delle Arti e dei Mestieri"; please keep the facilities clean and promptly report any malfunction or issue to a representative of the Association.

TICKETS AND CONTRIBUTIONS

You can visit the bunkers **only** with an admission ticket. Net of organizational expenses, the proceeds are donated entirely as a contribution to fund improvements to the accessibility of the internal and external routes, as well as the historical and cultural research that the Association has been conducting for years in archives worldwide.
Ticket prices and free admission details are displayed on the website www.bunkersoratte.it and at the ticket office.
